INTERNATIONAL BUREAU ANNOUNCES TWO-WEEK EXTENSION OF FILING WINDOW FOR EARTH STATIONS CURRENTLY OPERATING IN 3.7-4.2 GHz BAND

GN Docket No. 18-122

By this Public Notice, the International Bureau (Bureau) announces a two-week extension, through **October 31, 2018**, to the filing window for fixed-satellite service (FSS) earth stations currently operating in the 3.7-4.2 GHz frequency band announced in Public Notice DA 18-398 (April 19, 2018).¹ The Bureau previously announced that the filing window for earth stations in the 3.7-4.2 GHz band would close on October 17, 2018.² However, due to the large influx of earth station applications filed near the deadline, the International Bureau Filing System (IBFS) has experienced intermittent difficulties that have prevented some applicants from filing for license or registration. The Bureau has therefore decided to extend the filing window for an additional two weeks, through **October 31, 2018**, to accommodate filers who are unable to file by October 17.

For further information on the filing window extension or IBFS, please contact the IBFS Helpline at (202) 418-2222, or IBFSINFO@fcc.gov; Paul Blais at (202) 418-7274 or Paul.Blais@fcc.gov; or Kathleen Campbell at (202) 418-0753, or Kathleen.Campbell@fcc.gov.

Action by the Chief, International Bureau.
